WOODLARK®

HYBRID SERIES

An Italian collection of fine hybrid veneers

WOODLARKVENEER.COM

8 × 4 FT · 10 × 4 FT SHEETS

What is Woodlark Veneer?

The beauty of natural wood, designed for extraordinary spaces.

Woodlark veneer is an advanced decorative surfacing material that combines the elegance of natural wood with the consistency of engineered veneer. Crafted through a specialised process, it offers the richness of real wood grains while ensuring uniformity in texture, colour, and pattern.

Ideal for premium furniture, wall panelling, cabinetry, and interior décor, it provides excellent durability, easy maintenance, and a luxurious finish — the look of exotic wood, specified once and delivered identically, sheet after sheet, across a whole project.

Every design in 8 × 4 ft and 10 × 4 ft size
